Classic Ride Display Board

Display your car, bike, boat or airplane with pride. Like many classic ride owners, you've probably spent countless hours and dollars on your pride and joy. Some of them were restored to "cruise", some to "show" and some just to "drive". No matter what the case, as you know too well, it'll turn heads on the street or sitting still!

In addition to washing, polishing, waxing, shinning and opening the hood to display what you are proud of, take it a step further. Give the onlooker some information about your ride.

Let us help you put information about your ride on display with our completely customizable **Classic Ride Display Boards.** The design can be yours or we can do it for you. Our boards are manufactured on high quality Unisub® hardboard with the image actually "Imprinted" into the surface, not laminated onto it. Not only does it give you a durable, scratch resistant product of exquisite quality to rival that of your ride, it'll catch everyone's attention.

We'll need a high quality image(s) and the information you want to share. We can even take the picture for you. The boards are normally 18" x 24" in size but we can accommodate custom sizes. We can also work with ceramic tile, glass, metal and other materials in various sizes.

Call Angelo at 684-7898 and see what we can do for your classic ride!
